and Informatics Engineering

Instituto Superior Técnico  
Universidade de Lisboa ( 2013 - 2018 )

## Previous Work

BREAKINGDEV.PT

Hackathon Web Application for  
contestants enrollment and management

(@Softway) VEGA.PT

Webpage for a travel agency done with  
Bootstrap and PHP

# TOMÁS JACOB

## Junior Web Developer @ Softway

Hello, my name is Tomás and I am a Junior Web Developer at Softway Web Professionals in Cascais. I graduated from Técnico Lisboa in 2019 with a Masters in Engineering and Computer Science majoring in Interaction and Visualization. Currently, I work developing PHP-based websites for a variety of clients, using mostly frontend languages such as HTML, CSS and Javascript. I also enjoy exploring other front-end frameworks such as Vue and React.

## Experience

**Junior Web Developer @ Softway** ( 2019 - currently )

At Softway we develop websites for a variety of customers. We use HTML, CSS ( + Bootstrap and SASS ) and Javascript to create visually appealing and mobile responsive pages. My responsibilities include the development of the website frontend based on specific designs and integration with a custom PHP backend solution. I also have contributed to developing web stores using Shopify.

**Student @ Técnico Lisboa** ( 2012 - 2019 )

During my years studying at Instituto Superior Técnico I was actively involved in students groups and activities such as NEETI and AEIST. In these groups, I developed skills such as leadership, team group and handling of time-sensitive situations. I also had the opportunity to work and organize a magnitude of events such as BreakingDev, SET and others, both from a logistics standpoint and also developing technological solutions.

## Skills

Javascript ( 8/10 )

Vue JS ( 6/10 )

Bootstrap ( 8/10 )

HTML / CSS ( 8/10 )

Node JS ( 6/10 )

English ( 9/10 )

Other Languages and Software:

MongoDB, Express,  
Nuxt JS, Vuex, Meteor Framework, React, Redux,  
Python, Java, C,  
Git, NPM, Jest, Heroku, SASS,  
Image and Video Editing Tools
